Eye-D Cam

ID CARD CAMERA – A-100-3

For Wall Mounting use MBKT Wall Bracket

Made in
The USA

This specialized camera can be used with new or existing CCTV systems or recorders.

It is designed to provide a continuous picture output, so that when the ID card is inserted, the color video picture is immediately transmitted to an external recorder, multiplexer, quad, or switcher. A view of the customer will require an external camera and other equipment offered by Eye-D Cam.

Net Weight	1 lb. 4 oz. (567 g)
Shipping Wt.	4 lb. (1815 g)
Dimensions	8" L x 4-3/8" W x 3-1/2" H (203mm x 111mm x 88mm)

WHAT YOU GET:

- A full video picture of the customer, via an external camera (supplied separately.)
- A full resolution picture of the customer's ID card.
- A picture of the customer with their returned ID card, via the external camera (supplied separately.)

ADVANTAGES

- Employees love it. You've made it easy for the employee to check and record the customer's identification.
- You have positive evidence to protect yourself in legal investigations and to prosecute in fraud and theft cases.
- You have a strong deterrent, when people know that you are recording their picture and their ID card picture.
