

Eye-D Cam

(Patent Pending)

ID CARD CAMERA
AGE VERIFICATION CAMERA

For Wall Mounting use WLBKT Wall Bracket

This specialized camera can be used with new or existing CCTV systems or recorders.

This camera is designed to switch a picture from a view of the customer (via an external camera) to a full resolution picture of their ID card and send both videos to your recording equipment.

WHAT YOU GET:

- A full video picture of the customer, via an external camera (supplied separately.)
- A full resolution picture of the customer's ID card.
- A picture of the customer with their returned ID card, via the external camera (supplied separately.)

ADVANTAGES

- Employees love it. You've made it easy for the employee to check and record the customer's identification.
- You have positive evidence to protect yourself in legal investigations and to prosecute in fraud and theft cases.
- You have a strong deterrent, when people know that you are recording their picture and their ID card picture.
